Perfecting Mother Nature's handiwork

Df you're like many seniors, you have something you love about your looks — and a list of things you hate. That's normal!

Aren't you glad that The LOOK can work digital magic?

Flattering photos begin with choosing the right clothes and poses ... and we can help.

Then, thanks to the magic of digital retouching and enhancement, we can subtly minimize the flaws that bug you.

Basic Retouching: We retouch all images that come out of our studio. The regular retouching fee, \$9, includes clearing a few blemishes or flyaway hairs and lightly enhancing your skin texture. (Be sure to point out what you'd like done. One person's much-disliked mole is another's beauty mark!) Standard retouching is included as noted in our collections.

But that's just the beginning! Talk to us about what bugs you. Most of these makeovers start at \$25. (And do check out our

online guide to clothing and makeup before your session.)

Digital Diet — We can't make you anorexic, but we can trim chins, smooth bulges and generally take off 10 to 20 pounds without anyone being the wiser.

Digital Facial — If you're facing more than a few pimples, talk to us about perking up your appearance. You'll look like yourself — only perfected. (We do digital dentistry, too.)

Digital Face Lift and Body Lift — Yes, we can do what Nature didn't. Let's talk.

Face Transplants — We can put a smile on your face (as long as we've seen it in person a time or two). Actually, we can improve your favorite overall image with a smile from another photo. We can open your eyes, too.

Wardrobe Malfunctions — We can't change your shirt or iron it for you, ... but we can often change its color, touch up a few wrinkles, and make your white socks more civilized.
